<b>Office Action Summary</b>	<b>Application No.</b> 10/596,963	<b>Applicant(s)</b> LEHTONEN, KAI	
	<b>Examiner</b> Christopher S. Kim	<b>Art Unit</b> 3752	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### Status

- 1) ☒ Responsive to communication(s) filed on 16 June 2009.

## **DETAILED ACTION**

### ***Response to Amendment***

1. The response filed June 16, 2009 is acknowledged.
2. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

### ***Claim Rejections - 35 USC § 112***

3. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

4. Claims 42, 44 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. Claim 42 recites the limitation "whereby the auxiliary chamber is defined between the outer side of the first piston and the inner side of the second piston." It appears that the disclosure, as originally filed, teaches the auxiliary chamber being defined between the inner side of the first piston and the outer side of the second piston.

Art Unit: 3752

5. Claims 38, 43, 45 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 38 recites the limitation "a passage" in line 3. It appears to be a double inclusion of the "passage" recited in claim 37, line 24

Claim 45 recites the limitation "the passage or passages in the channel construction" in lines 1-2. There is insufficient antecedent basis for this limitation in the claim.

***Claim Rejections - 35 USC § 102***

6. Claims 34, 48-51 are rejected under 35 U.S.C. 102(b) as being anticipated by Herbert (3,399,692).

Herbert discloses a device comprising:

a body 8 defining:

an interior space;

a first channel 18;

a second channel 20;

a piston 12;

the interior space divided into:

a first main chamber (down stream of port 18 and land 34 when spool 12 is in the right position);

Art Unit: 3752

a second main chamber (upstream of port 20 and land 34 when spool 12 is in the left position);

at least one auxiliary chamber (chamber in which piston 30 slides);

a first direction (to the right);

a second direction (to the left).

7. Claims 34-36, 48-51 are rejected under 35 U.S.C. 102(b) as being anticipated by Djordjevic (WO02/14685; US 6,899,088 B2).

Djordjevic discloses a device comprising:

a body 24 defining:

an interior space;

a first channel 34;

a second channel 52;

a piston 32, 44;

the interior space divided into:

a first main chamber (formed by collar 30);

a second main chamber 50;

at least one auxiliary chamber 42;

a first direction (to the right);

a second direction (to the left).

### ***Response to Arguments***

Art Unit: 3752

8. Applicant's arguments with respect to claims 34-51 have been considered but are moot in view of the new ground(s) of rejection.

### ***Conclusion***

9. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Christopher S. Kim whose telephone number is (571) 272-4905. The examiner can normally be reached on Monday - Friday, 8:30 AM - 5:00 PM.
